

Please do not implement any proposal that lesses Indiana's Telephone Privacy law protections. This privacy law has greatly improved my time at home. Since it's implementation I have received only one or two calls (in the last 9 months) compared to the 15 to 20 weekly calls I used to get. It has been a god send as far as our household is concerned. I plead with you again do not implement any changes that would lessen the current Indiana Telephone Privacy law protections. Regards, Ronald F. Brosmer & family
